

AUTOPSY TABLE

Model : **ATVA-2**

Model : **ATVA-2-D**
(With downdraft)

HICO vertically height adjustable autopsy table is designed so that the pathologist can easily set his/her own comfortable working height. Height adjustment is operated by an electric powered mechanism to raise and lower the table. The ventilation grill at both sides of table to helps to ventilate the working area during post mortem process.

HICO vertically height adjustable autopsy table is constructed from high quality type 304 stainless steel. The table top is made of 2mm thick stainless steel. The table top have a large inside radius corner to enable easy cleaning.
