

BODY PREPARATION TROLLEY

Model : **BPT-100**

HICO Body Preparation Trolley is designed to provide reliability, comfort and safety in body preparation rites. A bigger working area is provided so that the body is prepared in a comfortable and dignified manner. This is done by taking the guard rails down and supporting them, providing 8" working space at each side of the trolley. These rails can easily be pulled up to ensure that the trolley can go through standard door smoothly. They are also provided to ensure safety while transporting the body.
