

MOBILE AUTOPSY CART

HAND CRANK TYPE

Model : **MAC-1**
(Without downdraft)

Model : **MAC-1-D**
(With downdraft)

HICO Mobile Autopsy Cart ensures that the cadaver remains on the single body tray throughout the autopsy procedures. The need in lifting and handling of cadavers is virtually eliminated. The Mobile Autopsy Cart locks into the Wall Mounted Dissecting Sink using HICO cart-latching system. It can be tilted using the hand crank to ensure complete draining of water into the sink.

The combination of the Mobile Autopsy Cart and the Wall Mounted Dissecting Sink creates a fully functioning autopsy table. The ventilation exhaust duct facility is provided which makes this autopsy cart ideal for special autopsy requirements especially in decomposition cases.

STANDARD FEATURES
